

Autumn/Winter Collection 2021

Nature speaks

dixie®

It's obvious. We have to consider how we can use things over and over again, no matter the season or occasion. At Dixie, we've been listening to nature for about twenty years and making products naturally for a natural living. As a result, our collection is essentially the same each year. There are some minor changes, of course. But we are committed to our beliefs and to the environment, and we are confident in our long-lasting products for everyday life. It's not very wild, but when nature speaks – you have to put your ear to the ground and listen.

Our sustainable jute rugs and doormats are handmade in southern India. Jute is a hard-wearing fibre that is easy to work. Thanks to modern manufacturing methods, it can be made into a soft, natural yarn that is a pleasure to weave and dye. The result is beautiful and durable rugs where every product is unique.

Sisal fibres from the sisal agave plant are about 1 metre long, ivory coloured, shiny and very strong. Use of sisal is advantageous from an environmental point of view as sisal absorbs more carbon dioxide than it produces.

Rugs made from sisal are naturally strong and suitable for most inside areas.

Rubber doormats /
Design by Lill O Sjöberg

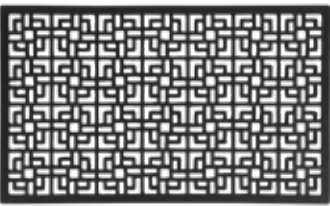

Material:
Rubber
Height:
1,2 cm

Our collection of rubber doormats makes you feel welcome and take good care of the dirt from your shoes at the same time. Take an extra look at our boot trays with high edges to prevent the water from your boots to damage the floor.

PET – A sustainable concept

To reduce our environmental impact, some of our items are made of polyester from recycled PET bottles. A collection that can withstand pouring rain and brilliant sunshine alike, but also works just as well indoors.

Gather and collect

Many of our baskets are handwoven from water hyacinth. This way, we help prevent Vietnamese watercourses from becoming clogged. Water hyacinth is a weed that grows freely, and which has a suffocating impact on major freshwater river systems.

Our choice of material results in items that are durable in the home and sustainable in nature.

What could be more beautiful and welcoming on a lovingly set table than carefully handmade linen placemats in sober colours.

The fibres in the stalks of flax plants are turned into the beautiful linen yarn that we weave into place mats before dipping them in starch for greater durability.

Join us at table.

Creating a classic takes time

It takes reflection and courage to hold on to your beliefs – to stand firm in your conviction that a product is exactly as it should be. This is a crucial insight for our shared future. Naturally, the product must last, and above all, it should contribute to a sustainable world. Some of our products have been with us for almost two decades. We love to call them classics. To us, it's simplicity and sustainability in harmony.

Natural Scandinavian living

We've navigated our way through expressions and trends for more than 25 years – the time it took to make us what we are today. The years brought with them wisdom and awareness, and not least the confidence to stand by what we think and feel.

We've corrected our course along the way on our heading toward simplicity and natural expression, and it seems we made the right important choices. A great many people agree and appreciate our sustainable values and timeless Scandinavian heritage.

In developing our product range, we set out from the Scandinavian design tradition. Soft, natural colours, thoughtful functionality, and authentic materials and textures. Natural, down-to-earth, yet so appreciated.

For us, contemporary furnishings mean more than colour schemes and the latest features. Our heritage also means taking responsibility for our products, the way they're made and what they're made of.

Over the years we've developed strong, cordial ties with carefully selected manufacturers who know we demand materials, production methods and working conditions of the highest standard. We have great confidence in them.

It's why we can produce and develop our products with materials best suited for their every purpose and expression. Functional, timeless interior design products that help achieve friendly, natural settings. Today and tomorrow.

The product is approved according to the REACH regulations.

The product is made by hand.

The product can be used for both indoors and outdoors.

The product has been in production for more than 10 years.
