Seasonal inspiration

Our contribution

Welcome back to nature again. As before, a collection in a timeless and durable design made of sustainable materials you will cherish forever.

It's a collection with a purpose. Made with global care for home. For daily use. If not forever, for years to come. Because we must all make contributions for the planet.

Our aim is to be sustainable throughout the value chain. For healthy working conditions, sustainable consumption, and circular use of resources. Our long-term sustainability work is based on Agenda 2030. Keep this year in mind. It's an important date.

There's no extravagances. It's simplicity in its most honest form, made for you and for the next generation. Long live life and the satisfaction of making conscious choices for our future. It's a humble gift, from nature to nature.

A modern interior scene featuring a light-colored sofa, a dark side table, a vase with dried flowers, and a striped rug. The scene is lit with warm, soft light, creating a cozy atmosphere. The text "On the floor" is overlaid in a large, white, serif font, with horizontal lines above and below it.

On the floor

Many of our sustainable jute rugs and doormats are handmade in southern India. Jute is a hard-wearing fibre that is easy to work. Thanks to modern manufacturing methods, it can be made into a soft, natural yarn that is a pleasure to weave and dye.

The result is beautiful and classic rugs where every product is unique. Meet Julia, Fiona, Freja, Fanny and Filip.

Sisal fibres from the sisal agave plant are about 1 metre long, ivory coloured, shiny and very strong. Use of sisal is advantageous from an environmental point of view as sisal absorbs more carbon dioxide than it produces.

Rugs made from sisal are naturally strong and suitable for most inside areas.

Enjoy our timeless and durable collection – Jenny.

Gather and collect

Many of our baskets are handwoven from water hyacinth. This way, we help prevent Vietnamese watercourses from becoming clogged. Water hyacinth is a weed that grows freely, and which has a suffocating impact on major freshwater river systems.

Our choice of material results in items that are durable in the home and sustainable in nature. Welcome to discover our friendly collection - Lily.

What could be more beautiful and welcoming on a lovingly set table than carefully handmade linen placemats in sober colours.

The fibres in the stalks of flax plants are turned into the beautiful linen yarn that we weave into place mats before dipping them in starch for greater durability.

Join us at table with classic Linnea.

Creating a classic takes time

It takes reflection and courage to hold on to your beliefs – to stand firm in your conviction that a product is exactly as it should be. This is a crucial insight for our shared future. Naturally, the product must last, and above all, it should contribute to a sustainable world. Some of our products have been with us for almost two decades. We love to call them classics. To us, it's simplicity and sustainability in harmony.

Natural Scandinavian Living

We've navigated our way through expressions and trends for more than 25 years – the time it took to make us what we are today. The years brought with them wisdom and awareness, and not least the confidence to stand by what we think and feel.

We've corrected our course along the way on our heading toward simplicity and natural expression, and it seems we made the right important choices. A great many people agree and appreciate our sustainable values and timeless Scandinavian heritage.

In developing our product range, we set out from the Scandinavian design tradition. Soft, natural colours, thoughtful functionality, and authentic materials and textures. Natural, down-to-earth, yet so appreciated.

For us, contemporary furnishings mean more than colour schemes and the latest features. Our heritage also means taking responsibility for our products, the way they're made and what they're made of.

Over the years we've developed strong, cordial ties with carefully selected manufacturers who know we demand materials, production methods and working conditions of the highest standard. We have great confidence in them.

It's why we can produce and develop our products with materials best suited for their every purpose and expression. Functional, timeless interior design products that help achieve friendly, natural settings. Today and tomorrow.

The product is approved according to the REACH regulations.

The product is made by hand.

The product can be used for both indoors and outdoors.

The product has been in production for more than 10 years.
